What is Community Partners Requesting?

Community Partners is seeking long-term, annual corporate partnerships to help improve the care, treatment and quality of life for those with disabilities and mental illness.

We are seeking financial support in the amount of \$1,500 to \$10,000 or more for programs that do not receive federal or state funding, or are under-funded.

We are passionate about what we do because we believe everyone has the right to live, work and be a contributing member of our community every day.

Corporate Partnerships are a Win-Win for both the Business and the Non-Profit

- We view this as a partnership between your company and Community Partners.
- Your level of support is your choice.
- Your impact program is your choice.
- We use varying media outlets to highlight our partnership throughout the year such as print, social media, internal and external employee and client communication.
- This partnership is for one year, with no additional financial requests from Community Partners (a rolling calendar year) during the year.
- As we approach the end of year for your sponsorship, together we will review the year so that we will be able to plan for next year's support level for your budget, and our programming needs.

Community Partners

The state designated mental health community center for
Strafford County and agency for developmental disabilities,
family support and ServiceLink provider.
