

COMMUNITY PARTNERS BOARD OF DIRECTORS

The Community Partners Board of Directors represent a diverse cross section of community members, each with specific experience and knowledge related to our services and the population that we serve. During monthly board and committee meetings, Board Members ensure that services are provided in a way that is both fiscally responsible and adheres to our mission. These dedicated volunteers advance our mission of promoting respect, wellness, full inclusion and empowerment of individuals and their families who experience mental illness, emotional distress, developmental disability, chronic health needs or acquired brain disorder.
