We hope this guide is helpful for families to find some outings within the Strafford County area. As a team, we compiled recreational activities separated and organized by towns. We also included some activities outside of Strafford County.

Please contact Paula Fraser (pfraser@communitypartnersnh.org) if you discover something inaccurate, or if you know of another resource we should include in future editions.

ABOUT COMMUNITY PARTNERS

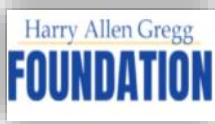

Community Partners has been in operation for over 40 years. Established as the Area Agency for Developmental Services in 1983, Community Partners sought and was awarded the contract to provide behavioral health services in Strafford County in 2001. We also contract with the State of New Hampshire for the Service Link Resource Center and Partners in Health Program

We have a long and rich history of providing critical supports and services for individuals and families living with developmental disabilities and/or behavioral health challenges, and are one of the only two places in the state where people can find both behavioral health and developmental supports and services within one agency.

Last year Community Partners served over 4,700 individuals and families. The agency's mission is to promote respect, wellness, full inclusion, and empowerment of individuals and their families who experience mental illness, emotional distress, developmental disability, chronic health need, or acquired brain disorder.
